[illegible]

He was of the opinion that due to lack of money my uncle couldn't avail better treatment to his daughter. I was also of the same opinion that with help of good doctors in Patna death can be conquered. But when my brother informed me that there were a number of atom bombs was present in the world a single one of which can destroy the entire world then my logic was failed.

It was a good experience for me after which I was taking enough to face small accidents easily. I started living a relaxed life. Any kind of fear or death and life could not threaten me and I was not running after a particular aim. I used to like such sports where individual talents were recognised. I started avoiding team works. I didn't like to blame other people for own failure.

I was hardly getting any time for playing after school and studies. The loss of interest towards my aim was not present that time. At that time I was dreaming of winning the world. Second position had no value for me. Second position means failure for me. I loved to be first in all fields, either sports, or studies or fight.

We used to visit village very frequently. In village my uncle used to tell the teacher of the school at the side of Mahadev pond and I was getting opportunity to visit school in holidays too. The children of town could never know the names of such games like kabaddi, satgarhiya, laal chadi etc. So the pattern of study was very different from cities. I was tired of writing a diary with ink pen made up of bamboo stick.
